```
<tr>
  <td valign="top" >
    <p class="oj-normal">(7)</p>
  </td>
  <td valign="top" >
    <p class="oj-normal">The consensus mechanisms used for the validation of
transactions in crypto-assets might have principal adverse impacts on the climate and other
environment-related adverse impacts. Such consensus mechanisms should therefore deploy more
environmentally-friendly solutions and ensure that any principal adverse impact that they might have
on the climate, and any other environment-related adverse impact, are adequately identified and
disclosed by issuers of crypto-assets and crypto-asset service providers. When determining whether
adverse impacts are principal, account should be taken of the principle of proportionality and the
size and volume of the crypto-asset issued. The European Supervisory Authority (European Securities
and Markets Authority) (ESMA) established by Regulation (EU) No 1095/2010 of the European Parliament
and of the Council <a id="ntc5-L_2023150EN.01004001-E0005" href="#ntr5-L_2023150EN.01004001-E0005"
>(<span class="oj-super oj-note-tag">5</span>)</a>, in cooperation
with the European Supervisory Authority (European Banking Authority) (EBA) established by Regulation
(EU) No 1093/2010 of the European Parliament and of the Council <a id="ntc6-L_2023150EN.01004001-
E0006" href="#ntr6-L_2023150EN.01004001-E0006"
>(<span class="oj-super oj-note-tag">6</span>)</a>, should therefore
be mandated to develop draft regulatory technical standards to further specify the content,
methodologies and presentation of information in relation to sustainability indicators with regard to
adverse impacts on climate and other environment-related adverse impacts, and to outline key energy
indicators. The draft regulatory technical standards should also ensure coherence of disclosures by
issuers of crypto-assets and by crypto-asset service providers. When developing the draft regulatory
technical standards, ESMA should take into account the various types of consensus mechanisms used for
the validation of transactions in crypto-assets, their characteristics and the differences between
them. ESMA should also take into account existing disclosure requirements, ensure complementarity and
consistency, and avoid increasing the burden on companies.</p>

>(<span class="oj-super oj-note-tag">7</span>)</a>, including
```

structured deposits as defined in Directive 2014/65/EU, those that qualify as funds as defined in Directive (EU) 2015/2366 of the European Parliament and of the Council 8, except if they qualify as electronic money tokens ('e-money tokens'), those that qualify as securitisation positions as defined in Regulation (EU) 2017/2402 of the European Parliament and of the Council 9, and those that qualify as non-life or life insurance contracts, pension products or schemes and social security schemes. Having regard to the fact that electronic money and funds received in exchange for electronic money should not be treated as deposits in accordance with Directive 2009/110/EC of the European Parliament and of the Council 10, e-money tokens cannot be treated as deposits that are excluded from the scope of this Regulation.</p></td></tr></tbody></table></div><div class="eli-subdivision" id="rct_10"><table width="100%" border="0" cellspacing="0" cellpadding="0"><col width="4%"/><col width="96%"/><tbody><tr><td valign="top" ><p class="oj-normal">(10)</p></td><td valign="top" ><p class="oj-normal">This Regulation should not apply to crypto-assets that are unique and not fungible with other crypto-assets, including digital art and collectibles. The value of such unique and non-fungible crypto-assets is attributable to each crypto-asset's unique characteristics and the utility it gives to the holder of the token. Nor should this Regulation apply to crypto-assets representing services or physical assets that are unique and non-fungible, such as product guarantees or real estate. While unique and non-fungible crypto-assets might be traded on the marketplace and be accumulated speculatively, they are not readily interchangeable and the relative value of one such crypto-asset in relation to another, each being unique, cannot be ascertained by means of comparison to an existing market or equivalent asset. Such features limit the extent to which those crypto-assets can have a financial use, thus limiting risks to holders and the financial system and justifying their exclusion from the scope of this Regulation.</p></td></tr></tbody></table></div><div class="eli-subdivision" id="rct_11"><table width="100%" border="0" cellspacing="0" cellpadding="0"><col width="4%"/><col width="96%"/><tbody><tr><td valign="top" ><p class="oj-normal">(11)</p></td><td valign="top" ><p class="oj-normal">The fractional parts of a unique and non-fungible crypto-asset should not be considered unique and non-fungible. The issuance of crypto-assets as non-fungible tokens in a large series or collection should be considered an indicator of their fungibility. The mere attribution of a unique identifier to a crypto-asset is not, in and of itself, sufficient to classify it as unique and non-fungible. The assets or rights represented should also be unique and non-fungible in order for the crypto-asset to be considered unique and non-fungible. The exclusion of crypto-assets that are unique and non-fungible from the scope of this Regulation is without prejudice to the qualification of such crypto-assets as financial instruments. This Regulation should also apply to crypto-assets that appear to be unique and non-fungible, but whose de facto features or whose features that are linked to their de facto uses, would make them either fungible or not unique. In that regard, when assessing and classifying crypto-assets, competent authorities should adopt a substance over form approach whereby the features of the crypto-asset in question determine the classification and not its designation by the issuer.</p></td></tr></tbody></table></div>

        </td>
        <td valign="top" >
          <p class="oj-normal">For the purposes of ensuring a clear delineation
between, on the one hand, crypto-assets covered by this Regulation and, on the other hand, financial
instruments, ESMA should be mandated to issue guidelines on the criteria and conditions for the
qualification of crypto-assets as financial instruments. Those guidelines should also allow for a
better understanding of the cases where crypto-assets that are otherwise considered unique and not
fungible with other crypto-assets might qualify as financial instruments. In order to promote a common
approach towards the classification of crypto-assets, EBA, ESMA and the European Supervisory Authority
(European Insurance and Occupational Pensions Authority) (EIOPA), established by Regulation (EU) No
1094/2010 of the European Parliament and of the Council <a id="ntc11-L_2023150EN.01004001-E0011"
href="#ntr11-L_2023150EN.01004001-E0011">
```

```
><span class="oj-super oj-note-tag">11</span></a> (the ‘European
Supervisory Authorities’ or ‘ESAs’) should promote discussions on such classification. Competent
authorities should be able to request opinions from the ESAs on the classification of crypto-assets,
including classifications proposed by offerors or persons seeking admission to trading. Offerors or
persons seeking admission to trading are primarily responsible for the correct classification of
crypto-assets, which might be challenged by the competent authorities, both before the date of
publication of the offer and at any time thereafter. Where the classification of a crypto-asset
appears to be inconsistent with this Regulation or other relevant Union legislative acts on financial
services, the ESAs should make use of their powers under Regulations (EU) No 1093/2010, (EU) No
1094/2010 and (EU) No 1095/2010 in order to ensure a consistent and coherent approach to such
classification.</p>
</td>

<tr>

<td valign="top" >

<p class="oj-normal">(26)</p>

</td>

<td valign="top" >

<p class="oj-normal">In order to ensure a proportionate approach, no

requirements of this Regulation should apply to offers to the public of crypto-assets other than asset-referenced tokens or e-money tokens that are offered for free or that are automatically created as a reward for the maintenance of a distributed ledger or the validation of transactions in the context of a consensus mechanism. In addition, no requirements should apply to offers of utility tokens providing access to an existing good or service, enabling the holder to collect the good or use the service, or when the holder of the crypto-assets has the right to use them only in exchange for goods and services in a limited network of merchants with contractual arrangements with the offeror. Such exemptions should not include crypto-assets representing stored goods that are not intended to be collected by the purchaser following the purchase. Neither should the limited network exemption apply to crypto-assets that are typically designed for a continuously growing network of service providers. The limited network exemption should be evaluated by the competent authority each time that an offer, or the aggregate value of more than one offer, exceeds a certain threshold, meaning that a new offer should not automatically benefit from an exemption of a previous offer. Those exemptions should cease to apply when the offeror, or another person acting on the offeror's behalf, communicates the offeror's intention of seeking admission to trading or the exempted crypto-assets are admitted to trading.</p>

</td>

        </td>
        <td valign="top" >
          <p class="oj-normal">In order to further ensure protection of retail holders of crypto-assets, retail holders that acquire crypto-assets other than asset-referenced tokens or e-money tokens directly from the offeror, or from a crypto-asset service provider placing the crypto-assets on behalf of the offeror, should be provided with a right of withdrawal during a period of 14 days after their acquisition. In order to ensure the smooth completion of a time-limited offer to the public of crypto-assets, the right of withdrawal should not be exercised by retail holders after the end of the subscription period. Furthermore, the right of withdrawal should not apply where crypto-assets other than asset-referenced tokens or e-money tokens are admitted to trading prior to the purchase by the retail holder because, in such a case, the price of such crypto-assets depends on the fluctuations of the markets in crypto-assets. Where the retail holder has a right of withdrawal under this Regulation, the right of withdrawal under Directive 2002/65/EC of the European Parliament and of the Council <a id="ntc16-L_2023150EN.01004001-E0016" href="#ntr16-L_2023150EN.01004001-E0016">16</span></a> should not apply.

<p class="oj-normal">(53)</p>

</td>

<td valign="top" >

<p class="oj-normal">To address the risks to the financial stability of the wider financial system, issuers of asset-referenced tokens should be subject to own funds requirements. Those requirements should be proportionate to the issuance size of the asset-referenced tokens and therefore calculated as a percentage of the reserve of assets that back the value of the asset-referenced tokens. Competent authorities should however be able to increase the amount of own funds required based on, inter alia, the evaluation of the risk-management process and internal control mechanisms of the issuer, the quality and volatility of the reserve assets backing the asset-referenced tokens, or the aggregate value and number of transactions settled in asset-referenced tokens.</p>

</td>

</tr>

</tbody>

```
</table>
</div>
<div class="eli-subdivision" id="rct_54">
  <table width="100%" border="0" cellspacing="0" cellpadding="0">
    <col width="4%"/>
    <col width="96%"/>
    <tbody>
      <tr>
        <td valign="top" >
          <p class="oj-normal">(54)</p>
        </td>
        <td valign="top" >
          <p class="oj-normal">In order to cover their liability against holders of
asset-referenced tokens, issuers of asset-referenced tokens should constitute and maintain a reserve
of assets matching the risks reflected in such liability. The reserve of assets should be used for the
benefit of the holders of the asset-referenced tokens when the issuer is not able to fulfil its
obligations towards the holders, such as in insolvency. The reserve of assets should be composed and
managed in such a way that market and currency risks are covered. Issuers of asset-referenced tokens
should ensure the prudent management of the reserve of assets and should, in particular, ensure that
the value of the reserve amounts at least to the corresponding value of tokens in circulation and that
changes in the reserve are adequately managed to avoid adverse impacts on the markets of the reserve
assets. Issuers of asset-referenced tokens should therefore have clear and detailed policies that
describe, inter alia, the composition of the reserve of assets, the allocation of assets included
therein, a comprehensive assessment of the risks raised by the reserve assets, the procedure for the
issuance and redemption of the asset-referenced tokens, the procedure to increase and decrease the
reserve assets and, where the reserve assets are invested, the investment policy that is followed by
the issuers. Issuers of asset-referenced tokens that are marketed both in the Union and in third
countries should ensure that their reserve of assets is available to cover the issuers' liability
towards Union holders. The requirement to hold the reserve of assets with firms subject to Union law
should therefore apply in proportion to the share of asset-referenced tokens that is expected to be
marketed in the Union.</p>
        </td>
      </tr>

          <p class="oj-normal">To prevent the risk of loss for asset-referenced
tokens and to preserve the value of those assets, issuers of asset-referenced tokens should have an
adequate custody policy for their reserve assets. That policy should ensure that the reserve assets
are fully segregated from the issuer's own assets at all times, that the reserve assets are not
encumbered or pledged as collateral, and that the issuer of asset-referenced tokens has prompt access
to those reserve assets. The reserve assets should, depending on their nature, be held in custody by a
crypto-asset service provider, by a credit institution authorised under Directive 2013/36/EU or by an
investment firm authorised under Directive 2014/65/EU. That should not exclude the possibility of
delegating the holding of the physical assets to another entity. Crypto-asset service providers,
credit institutions or investment firms that act as custodians of reserve assets should be responsible
for the loss of such reserve assets vis-à-vis the issuer or the holders of the asset-referenced
tokens, unless they prove that such loss has arisen as a result of an external event beyond their
reasonable control. Concentrations of the custodians of reserve assets should be avoided. However, in
certain situations, that might not be possible due to a lack of suitable alternatives. In such cases,
a temporary concentration should be deemed acceptable.</p>

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

In order to ensure consumer protection, market integrity and financial stability, crypto-asset service providers should always act honestly, fairly and professionally and in the best interests of their clients. Crypto-asset services should be deemed ‘financial services’ as defined in Directive 2002/65/EC in cases where they meet the criteria of that Directive. Where marketed at distance, the contracts between crypto-asset service providers and consumers should be subject to Directive 2002/65/EC as well, unless expressly stated otherwise in this Regulation. Crypto-asset service providers should provide their clients with information that is complete, fair, clear and not misleading and warn them about the risks associated with crypto-assets. Crypto-asset service providers should make their pricing policies public, should establish complaints-handling procedures and should have a robust policy for the identification, prevention, management and disclosure of conflicts of interest.

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

To ensure consumer protection, crypto-asset service providers authorised under this Regulation should comply with certain prudential requirements. Those prudential requirements should be set as a fixed amount or in proportion to the fixed overheads of crypto-asset service providers of the preceding year, depending on the types of services they provide.

--	--

--	--

--	--

--	--

--	--

Crypto-asset service providers should be subject to

strong organisational requirements. The members of the management body of crypto-asset service providers should be fit and proper and should, in particular, not have been convicted of any offence in the field of money laundering or terrorist financing or of any other offence that would affect their good reputation. The shareholders or members, whether direct or indirect, natural or legal persons, that have qualifying holdings in crypto-asset service providers should be of sufficiently good reputation and should, in particular, not have been convicted of any offence in the field of money laundering or terrorist financing or of any other offence that would affect their good reputation. In addition, where the influence exercised by shareholders and members that have qualifying holdings in crypto-asset service providers is likely to be prejudicial to the sound and prudent management of the crypto-asset service provider taking into account, amongst others, their previous activities, the risk of them engaging in illicit activities, or the influence or control by a government of a third country, competent authorities should have the power to address those risks. Crypto-asset service providers should employ management and staff with adequate knowledge, skills and expertise and should take all reasonable steps to perform their functions, including through the preparation of a business continuity plan. They should have sound internal control and risk assessment mechanisms as well as adequate systems and procedures to ensure the integrity and confidentiality of the information received. Crypto-asset service providers should have appropriate arrangements to keep records of all transactions, orders and services related to the crypto-asset services that they provide. They should also have systems in place to detect potential market abuse committed by clients.

--	--

--	--

	<p class="oj-normal">(82)</p>
	<p>In order to ensure protection of their clients, crypto-asset service providers should have adequate arrangements to safeguard the clients' ownership rights with respect to the crypto-assets they hold. Where their business model requires them to hold funds as defined in Directive (EU) 2015/2366 in the form of banknotes, coins, scriptural money or electronic money belonging to their clients, crypto-asset service providers should place such funds with a credit institution or a central bank, where an account with the central bank is available. Crypto-asset service providers should be authorised to make payment transactions in connection with the crypto-asset services they offer only where they are authorised as payment institutions in accordance with that Directive.</p>

	<p class="oj-normal">(83)</p>
	<p>Depending on the services they provide and due to the specific risks raised by each type of services, crypto-asset service providers should be subject to requirements specific to those services. Crypto-asset service providers providing custody and administration of crypto-assets on behalf of clients should conclude an agreement with their clients with certain mandatory provisions and should establish and implement a custody policy, which should be made available to clients upon their request in an electronic format. Such agreement should specify, inter alia, the nature of the service provided, which could include the holding of crypto-assets belonging to clients or the means of access to such crypto-assets, in which case the client might keep control of the crypto-assets in custody. Alternatively, the crypto-assets or the means of access to them could be transferred to the full control of the crypto-asset service provider. Crypto-asset service providers that hold crypto-assets belonging to clients, or the means of access to such crypto-assets, should ensure that those crypto-assets are not used for their own account. The crypto-asset service providers should ensure that all crypto-assets held are always unencumbered. Those crypto-asset service providers should also be held liable for any losses resulting from an incident related to information and communication technology ('ICT'), including an incident resulting from a cyber-attack, theft or any malfunctions. Hardware or software providers of non-custodial wallets should not</p>

means of exchange and to make large volumes of payment transactions. Since such large volumes can pose
specific risks to monetary transmission channels and monetary sovereignty, it is appropriate to assign
to EBA the task of supervising the issuers of asset-referenced tokens, once such tokens have been
classified as significant. Such assignment should address the very specific nature of the risks posed
by asset-referenced tokens, and should not set a precedent for any other Union legislative acts on
financial services.</p>
                </td>
            </tr>
        </tbody>
    </table>
</div>
<div class="eli-subdivision" id="rct_103">
```

	<p>(103)</p> <p>Competent authorities in charge of supervision under Directive 2009/110/EC should supervise issuers of e-money tokens. However, given the potential widespread use of significant e-money tokens as a means of payment and the risks they can pose to financial stability, a dual supervision both by competent authorities and by EBA of issuers of significant e-money tokens is necessary. EBA should supervise the compliance by issuers of significant e-money tokens with the specific additional requirements set out in this Regulation for such tokens. Since the specific additional requirements should apply only to electronic money institutions issuing significant e-money tokens, credit institutions issuing significant e-money tokens, to which such requirements do not apply, should remain supervised by their respective competent authorities. The dual supervision should address the very specific nature of the risks posed by e-money tokens, and should not set a precedent for any other Union legislative acts on financial services.</p>

	<p>(104)</p> <p>Significant e-money tokens denominated in an official currency of a Member State other than the euro which are used as a means of exchange and in order to settle large volumes of payment transactions can, although unlikely to occur, pose specific risks to the monetary sovereignty of the Member State in whose official currency they are denominated. Where at least 80 % of the number of holders and of the volume of transactions of those significant e-money tokens are concentrated in the home Member State, the supervisory responsibilities should not be transferred to EBA.</p>
--	--

	<p>(105)</p> <p>EBA should establish a college of supervisors for each issuer of significant asset-referenced tokens and of significant e-money tokens. Since issuers of significant asset-referenced tokens and of significant e-money tokens are usually at the centre of a network of entities that ensure the issuance, transfer and distribution of such crypto-assets, the members of the college of supervisors for each issuer should therefore include, amongst others, the competent authorities of the most relevant trading platforms for crypto-assets, in cases where the significant asset-referenced tokens or the significant e-money tokens are admitted to trading, and the competent authorities of the most relevant entities and crypto-asset service providers ensuring the custody and administration of the significant asset-referenced tokens and of significant e-money tokens on behalf of holders. The college of supervisors for issuers of significant asset-referenced tokens and of significant e-money tokens should facilitate the cooperation and exchange of information among its members and should issue non-binding opinions on, amongst others, changes to the authorisation of, or supervisory measures concerning, such issuers.</p>
--	---

<p>(106)</p>	<p>To supervise issuers of significant asset-referenced tokens and of significant e-money tokens, EBA should have the powers, amongst others, to carry out on-site inspections, take supervisory measures and impose fines.</p>
--------------	---

<p>(107)</p>	<p>EBA should charge fees to issuers of significant asset-referenced tokens and of significant e-money tokens to cover its costs, including for overheads. For issuers of significant asset-referenced tokens, the fee should be proportionate to the size of their reserve of assets. For issuers of significant e-money tokens, the fee should be proportionate to the amount of funds received in exchange for the significant e-money tokens.</p>
--------------	---

<p>(108)</p>	<p>In order to ensure the effectiveness of this</p>
--------------	---

Regulation, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of further specifying technical elements of the definitions set out in this Regulation in order to adjust them to market and technological developments, further specifying certain criteria to determine whether an asset-referenced token or an e-money token should be classified as significant, determining when there is a significant investor protection concern or a threat to the proper functioning and integrity of markets in crypto-assets or to the stability of the whole or part of the financial system of the Union, further specifying the procedural rules for the exercise of the power of EBA to impose fines or periodic penalty payments, including provisions on the rights of the defence, temporal provisions, and the collection of fines or periodic penalty payments, and the limitation periods for the imposition and enforcement of fines and periodic penalty payments, and further specifying the type and amount of supervisory fees that EBA can charge to the issuers of significant asset-referenced tokens or significant e-money tokens. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making [22](#). In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

the public and to seek their admission to trading

Authorisation

Article 16

Authorisation

1. A person shall not make an offer to the public, or seek the admission to trading, of an asset-referenced token, within the Union, unless that person is the issuer of that asset-referenced token and is:

(a)	a legal person or other undertaking that is established in the Union and has been authorised in accordance with Article 21 by the competent authority of its home Member State; or
(b)	a credit institution that complies with

Article 17.

Notwithstanding the first subparagraph, upon the written consent of the issuer of an asset-referenced token, other persons may offer to the public or seek the admission to trading of that asset-referenced token. Those persons shall comply with Articles 27, 29 and 40.

For the purposes of point (a) of the first subparagraph, other undertakings may issue asset-referenced tokens only if their legal form ensures a level of protection for third parties' interests equivalent to that afforded by legal persons and if they are subject to equivalent prudential supervision appropriate to their legal form.

2. Paragraph 1 shall not apply where:

(a)	over a period of 12 months, calculated at the end of each calendar day, the average outstanding value of the asset-referenced token issued by an issuer never exceeds EUR 5 000 000, or the equivalent amount in another official currency, and the issuer is not linked to a network of other exempt issuers; or

<div id="020.004">

<p class="oj-normal">4. Competent authorities shall, after the period of 60 working days referred to in paragraph 2, transmit their draft decision and the application to EBA, ESMA and the ECB. Where the applicant issuer is established in a Member State whose official currency is not the euro, or where an official currency of a Member State that is not the euro is referenced by the asset-referenced token, the competent authorities shall transmit their draft decision and the application also to the central bank of that Member State.</p>

</div>

<div id="020.005">

<p class="oj-normal">5. EBA and ESMA shall, at the request of the competent authority, and within 20 working days of receipt of the draft decision and the application, issue an opinion as regards their evaluation of the legal opinion referred to in Article 18(2), point (e), and transmit their respective opinions to the competent authority concerned.</p>

<p class="oj-normal">The ECB or, where applicable, the central bank referred to in paragraph 4 shall, within 20 working days of receipt of the draft decision and the application,

issue an opinion as regards its evaluation of the risks that issuing that asset-referenced token might pose to financial stability, the smooth operation of payment systems, monetary policy transmission and monetary sovereignty, and transmit its opinion to the competent authority concerned.

Without prejudice to Article 21(4), the opinions referred to in the first and second subparagraphs of this paragraph shall be non-binding.

The competent authority shall, however, duly consider the opinions referred in the first and second subparagraphs of this paragraph.

Article 21

Grant or refusal of the authorisation

1. Competent authorities shall, within 25 working days of receipt of the opinions referred to in Article 20(5), take a fully reasoned decision granting or refusing authorisation to the applicant issuer and, within five working days of taking that decision, notify it to the applicant issuer. Where an applicant issuer is authorised, its crypto-asset white paper shall be deemed to be approved.

2. Competent authorities shall refuse authorisation where there are objective and demonstrable grounds that:

(a)	the management body of the applicant issuer might pose a threat to its effective, sound and prudent management and business continuity and to the adequate consideration of the interest of its clients and the integrity of the market;

members of the management body do not meet the criteria set out in Article 34(2);

shareholders and members, whether direct or indirect, that have qualifying holdings do not meet the criteria of sufficiently good repute set out in Article 34(4);

    <p class="oj-normal">4. Issuers of asset-referenced tokens shall exercise
all due skill, care and diligence in the selection, appointment and review of crypto-asset service
providers, credit institutions and investment firms appointed as custodians of the reserve assets as
referred to in paragraph 3. The custodian shall be a legal person different from the issuer.</p>

```

--

shall verify the ownership of the issuers of the asset-referenced tokens and shall maintain a record of those reserve assets for which they are satisfied that the issuers of the asset-referenced tokens own those reserve assets.

For the purposes of point (a) of the first subparagraph, credit institutions shall ensure that funds are registered in the credit institutions' books on a segregated account in accordance with the provisions of national law transposing Article 16 of Commission Directive 2006/73/EC [40](#). That account shall

be opened in the name of the issuer of the asset-referenced tokens for the purposes of managing the reserve assets of each asset-referenced token, so that the funds held in custody can be clearly identified as belonging to each reserve of assets.

For the purposes of point (b) of the first subparagraph, credit institutions and investment firms shall ensure that all financial instruments that can be registered in a financial instruments account opened in the credit institutions' books and investment firms' books are registered in the credit institutions' and investment firms' books on segregated accounts in accordance with the provisions of national law transposing Article 16 of Directive 2006/73/EC. The financial instruments account shall be opened in the name of the issuers of the asset-referenced tokens for the purposes of managing the reserve assets of each asset-referenced token, so that the financial instruments held in custody can be clearly identified as belonging to each reserve of assets.

For the purposes of point (c) of the first subparagraph, crypto-asset service providers shall open a register of positions in the name of the issuers of the asset-referenced tokens for the purposes of managing the reserve assets of each asset-referenced token, so that the crypto-assets held in custody can be clearly identified as belonging to each reserve of assets.

For the purposes of point (d) of the first subparagraph, the assessment whether issuers of asset-referenced tokens own the reserve assets shall be based on information or documents provided by the issuers of the asset-referenced tokens and, where available, on external evidence.

7. The appointment of crypto-asset service providers, credit institutions or investment firms as custodians of the reserve assets as referred to in paragraph 4 of this Article shall be evidenced by a contractual arrangement as referred to in Article 34(5), second subparagraph. Those contractual arrangements shall, amongst others, regulate the flow of information necessary to enable the issuers of the asset-referenced tokens and the crypto-asset service providers, credit institutions and investment firms to perform their functions as custodians.

8. The crypto-asset service providers, credit institutions and investment firms appointed as custodians in accordance with paragraph 4 shall act honestly, fairly, professionally, independently and in the interest of the issuers of the asset-referenced tokens and the holders of such tokens.

9. The crypto-asset service providers, credit institutions and investment firms appointed as custodians in accordance with paragraph 4 shall not carry out activities with regard to the issuers of the asset-referenced tokens that might create conflicts of interest between those issuers, the holders of the asset-referenced tokens and themselves unless all of the following conditions are met:

  <p class="oj-normal">In the case of credit institutions, EBA shall calibrate
the technical standards taking into consideration any possible interactions between the regulatory
```

requirements established by this Regulation and the regulatory requirements established by other Union legislative acts.

EBA shall submit the draft regulatory technical standards referred to in the first subparagraph to the Commission by 30 June 2024.

Power is delegated to the Commission to supplement this Regulation by adopting the regulatory technical standards referred to in the first subparagraph of this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

8. EBA, in close cooperation with ESMA and the ECB, shall issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010 with a view to establishing the common reference parameters of the stress test scenarios to be included in the stress tests referred to in paragraph 4 of this Article. Those guidelines shall be updated periodically taking into account the latest market developments.

CHAPTER 6

Recovery and redemption plans

Article 46

Recovery plan

1. An issuer of an asset-referenced token shall draw up and maintain a recovery plan providing for measures to be taken by the issuer to restore compliance with the requirements applicable to the reserve of assets in cases where the issuer fails to comply with those requirements.

The recovery plan shall also include the preservation of the issuer's services related to the asset-referenced token, the timely recovery of operations and the fulfilment of the issuer's obligations in the case of events that pose a significant risk of disrupting operations.

The recovery plan shall include appropriate conditions and procedures to ensure the timely implementation of recovery actions as well as a wide range of recovery options, including:

(a)	liquidity fees on redemptions;
(b)	limits on the amount of the asset-referenced token that can be redeemed on any working day;

the issuer of the asset-referenced token to carry out the redemption of the outstanding asset-referenced token issued without causing undue economic harm to its holders or to the stability of the markets of the reserve assets.

The redemption plan shall include contractual arrangements, procedures and systems, including the designation of a temporary administrator in accordance with applicable law, to ensure the equitable treatment of all holders of asset-referenced tokens and to ensure that holders of asset-referenced tokens are paid in a timely manner with the proceeds from the sale of the remaining reserve assets.

The redemption plan shall ensure the continuity of any critical activities that are necessary for the orderly redemption and that are performed by issuers or by any third-party entity.

3. The issuer of the asset-referenced token shall notify the redemption plan to the competent authority within six months of the date of authorisation pursuant to Article 21 or within six months of the date of approval of the crypto-asset white paper pursuant to Article 17. The competent authority shall require amendments to the redemption plan where necessary to ensure its proper implementation and shall notify its decision requesting those amendments to the issuer within 40 working days of the date of notification of that plan. That decision shall be implemented by the issuer within 40 working days of the date of notification of that decision. The issuer shall regularly review and update the redemption plan.

4. Where applicable, the competent authority shall notify the redemption plan to the resolution authority and prudential supervisory authority of the issuer.

The resolution authority may examine the redemption plan with a view to identifying any actions in the redemption plan that might adversely impact the resolvability of the issuer, and may make recommendations to the competent authority in respect thereof.

5. EBA shall issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010 to specify:

	(a)
	the content of the redemption plan and the periodicity for review, taking into account the size, complexity and nature of the asset-referenced token and the business model of its issuer; and

	(b)
	the triggers for implementation of the redemption plan.

```

steps to ensure that clients' funds other than e-money tokens held with a credit institution or a central bank are held in an account separately identifiable from any accounts used to hold funds belonging to the crypto-asset service providers.

4. Crypto-asset service providers may themselves, or through a third party, provide payment services related to the crypto-asset service they offer provided that the crypto-asset service provider itself, or the third party, is authorised to provide those services under Directive (EU) 2015/2366.

Where payment services are provided, crypto-asset service providers shall inform their clients of all of the following:

(a)	the nature and terms and conditions of those services, including references to the applicable national law and to the rights of clients;
(b)	whether those services are provided by them directly or by a third party.

5. Paragraphs 2 and 3 of this Article shall not apply to crypto-asset service providers that are electronic money institutions, payment institutions or credit institutions.

Article 71

Complaints-handling procedures

1. Crypto-asset service providers shall establish and maintain effective and transparent procedures for the prompt, fair and consistent handling of complaints received from clients and shall publish descriptions of those procedures.

2. Clients shall be able to file complaints free of charge with crypto-asset service providers.

3. Crypto-asset service providers shall inform clients of the possibility of filing a complaint. Crypto-asset service providers shall make available to clients a template for filing complaints and shall keep a record of all complaints received and any measures taken in response thereto.

4. Crypto-asset service providers shall investigate all complaints in a timely and fair manner and communicate the outcome of such investigations to their clients within a reasonable period.

```
<p class="oj-normal">5. ESMA, in close cooperation with EBA, shall develop
draft regulatory technical standards to further specify the requirements, templates and procedures for
handling complaints.</p>

practices, facilitate collaboration, foster consistency of interpretation, and provide cross-jurisdictional assessments in the event of any disagreements.

For the purposes of the first subparagraph of this paragraph, EBA and ESMA shall fulfil a coordination role between competent authorities and across supervisory colleges as referred to in Article 119 with a view to building a common supervisory culture and consistent supervisory practices and ensuring uniform procedures.

9. Where a competent authority finds that any of the requirements under this Regulation has not been met or has reason to believe that to be the case, it shall inform the competent authority of the entity or entities suspected of such infringement of its findings in a sufficiently detailed manner.

10. ESMA, in close cooperation with EBA, shall develop draft regulatory technical standards to further specify the information to be exchanged between competent authorities pursuant to paragraph 1.

ESMA shall submit the draft regulatory technical standards referred to in the first subparagraph to the Commission by 30 June 2024.

Power is delegated to the Commission to supplement this Regulation by adopting the regulatory technical standards referred to in the first subparagraph of this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

11. ESMA, in close cooperation with EBA, shall develop draft implementing technical standards to establish standard forms, templates and procedures for the cooperation and exchange of information between competent authorities.

ESMA shall submit the draft implementing technical standards referred to in the first subparagraph to the Commission by 30 June 2024.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph of this paragraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

Article 96

Cooperation with EBA and ESMA

1. For the purposes of this Regulation, the competent authorities shall cooperate closely with ESMA in accordance with Regulation (EU) No 1095/2010 and with EBA in accordance with Regulation (EU) No 1093/2010. They shall exchange information in order to carry out their duties under this Chapter and Chapters 2 and 3 of this Title.

2. The competent authorities shall without delay provide EBA and ESMA with all information necessary to perform their duties, in accordance with Article 35 of Regulation (EU) No 1093/2010 and Article 35 of Regulation (EU) No 1095/2010 respectively.

3. ESMA, in close cooperation with EBA, shall develop draft implementing technical standards to establish standard forms, templates and procedures for the cooperation and exchange of information between competent authorities and EBA and ESMA.

ESMA shall submit the draft implementing technical standards referred to in the first subparagraph to the Commission by 30 June 2024.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph of this paragraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

Article 97

Promotion of convergence on the classification of crypto-assets

1. By 30 December 2024, the ESAs shall jointly issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010, Article 16 of Regulation (EU) No 1094/2010 and Article 16 of Regulation (EU) No 1095/2010 to specify the content and form of the explanation accompanying the crypto-asset white paper referred to in Article 8(4) and of the legal opinions on the qualification of asset-referenced tokens referred to in Article 17(1), point (b)(ii),

and Article 18(2), point (e). The guidelines shall include a template for the explanation and the opinion and a standardised test for the classification of crypto-assets.</p>
</div>
<div id="097.002">
<p class="oj-normal">2. The ESAs shall, in accordance with Article 29 of Regulation (EU) No 1093/2010, Article 29 of Regulation (EU) No 1094/2010 and Article 29 of Regulation (EU) No 1095/2010, respectively, promote discussion among competent authorities on the classification of the crypto-assets, including on the classification of those crypto-assets that are excluded from the scope of this Regulation pursuant to Article 2(3). The ESAs shall also identify the sources of potential divergences in the approaches of the competent authorities to the classification of those crypto-assets and shall, to the extent possible, promote a common approach thereto.</p>
</div>
<div id="097.003">
<p class="oj-normal">3. Competent authorities of the home or the host Member States may request ESMA, EIOPA or EBA, as appropriate, for an opinion on the classification of crypto-assets, including those that are excluded from the scope of this Regulation pursuant to Article 2(3). ESMA, EIOPA or EBA, as applicable, shall provide such opinion in accordance with Article 29 of Regulation (EU) No 1093/2010, Article 29 of Regulation (EU) No 1094/2010 and Article 29 of Regulation (EU) No 1095/2010, as applicable, within 15 working days of receipt of the request from the competent authorities.</p>

2. A periodic penalty payment shall be effective and proportionate. The periodic penalty payment shall be imposed for each day of delay.

3. Notwithstanding paragraph 2, the amount of the periodic penalty payments shall be 3 % of the average daily turnover in the preceding business year or, in the case of natural persons, 2 % of the average daily income in the preceding calendar year. It shall be calculated from the date set out in EBA's decision imposing the periodic penalty payment.

which has been requested by a decision pursuant to Article 122;

in particular to produce complete records, data, procedures or any other material required and to complete and correct other information provided in an investigation launched by a decision pursuant to Article 123;

inspection ordered by a decision taken pursuant to Article 124.

4. A periodic penalty payment shall be imposed for a maximum period of six months following the notification of EBA's decision. At the end of that period, EBA shall review the measure.

Article 133

Disclosure, nature, enforcement and allocation of fines and periodic penalty payments

1. EBA shall disclose to the public every fine and periodic penalty payment that has been imposed pursuant to Articles 131 and 132, unless such disclosure to the public would seriously jeopardise financial stability or cause disproportionate damage to the parties involved. Such disclosure shall not contain personal data.
2. Fines and periodic penalty payments imposed pursuant to Articles 131 and 132 shall be of an administrative nature.
3. Fines and periodic penalty payments imposed pursuant to Articles 131 and 132 shall be enforceable in accordance with the rules of civil procedure in force in the State in the territory of which the fine or periodic penalty payment is enforced.
4. The amounts of the fines and periodic penalty payments shall be allocated to the general budget of the Union.
5. Where, notwithstanding Articles 131 and 132, EBA decides not to impose fines or penalty payments, it shall inform the European Parliament, the Council, the Commission, and the competent authorities of the Member State concerned and shall set out the reasons for its decision.

Article 134

Procedural rules for taking supervisory measures and imposing fines

1. Where, in carrying out its supervisory responsibilities under Article 117, there are clear and demonstrable grounds to suspect that there has been or will be an infringement as listed in Annex V or VI, EBA shall appoint an independent investigation officer within EBA to investigate the matter. The investigation officer shall not be involved or have been directly or indirectly involved in the supervision of the issuers of significant asset-referenced tokens or issuers of significant e-money tokens concerned and shall perform its functions independently from EBA.
2. The investigation officer shall investigate the alleged infringements, taking into account any comments submitted by the persons who are subject to the investigation, and shall submit a complete file with the investigation officer's findings to EBA.
3. In order to carry out its tasks, the investigation officer may exercise the power to request information in accordance with Article 122 and the power to conduct investigations and on-site inspections in accordance with Articles 123 and 124. When using those powers, the investigation officer shall comply with Article 121.
4. Where carrying out its tasks, the investigation officer shall have access to all documents and information gathered by EBA in its supervisory activities.
5. Upon completion of its investigation and before submitting the file with its findings to EBA, the investigation officer shall give the persons subject to the investigation the opportunity to be heard on the matters being investigated. The investigation

```
officer shall base its findings only on facts on which the persons concerned have had the opportunity
to comment.</p>
</div>
<div id="134.006">
  <p class="oj-normal">6. The rights of the defence of the persons concerned
shall be fully respected during investigations under this Article.</p>
